

N780DM 2004 American Champion 8GCBC Scout

Description

2004 American Champion Scout. This beautiful, like-new Scout boasts exceptional Short Takeoff and Landing (STOL) capabilities, powered by a reliable and robust 180 HP Lycoming O-360 engine. Its durable steel tube fuselage and fabric-covered wings are built to endure the toughest environments, while the high-wing design and glass canopy offer superior visibility. This 2004 is equipped with a fantastic avionics and instrument package. Its airframe boasts like-new paint and a near-perfect interior with upgraded features like leather seats, front and rear heat, and Hooker harnesses installed. It has a low-time airframe and engine with a 300-hour 3-blade MT composite prop. In addition, an Alaskan Bush Wheel STC is included with the aircraft. This Scout's performance, amazing off-airport capability, generous useful load, fantastic condition, and low time make it an excellent choice for someone wanting to enjoy the performance and capabilities of an 8GCBC at a fraction of the cost of new!
